# ABOUT US

## LEVEL 2 BEE CONTRIBUTOR

Egoli Gas (Pty) Ltd is a Natural Gas reticulator based in Johannesburg and servicing more than 8500 Domestic, Central-Water heating, Hospitality, Industrial and Power Generation businesses in the Johannesburg area and offer environmentally friendly, safe, reliable and energy-efficient Piped Natural Gas. Our commitment to your energy efficient, low-carbon lifestyle ensures an uninterrupted flow of Piped Natural Gas ready to use safely. Egoli Gas (Pty) Ltd acquires Natural Gas from

Sasol which is carefully monitored and controlled. Egoli Gas is located in many of the more established Johannesburg suburbs; however the pipeline extends even further for our Hospitality, Industrial and Power Generation customers including Sandton and Randburg.

# COMPANY VISION

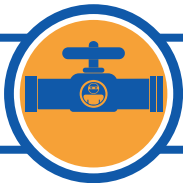

## OUR VALUES

### WE PLEDGE TO:

- TAKE RESPONSIBILITY FOR THE IMPACT OF OUR ACTIONS ON THE ENVIRONMENT, OUR OCCUPATIONAL HEALTH AND SAFETY AND ALL OUR STAKEHOLDERS
- CREATE A PERFORMANCE DRIVEN CULTURE
- DELIVER QUALITY AND EFFICIENT SERVICE

“TO BE A LEADING WORLD CLASS NATURAL GAS RETICULATION BUSINESS, GROWING RAPIDLY IN OUR LICENSED AREAS, WHILST PROVIDING OPPORTUNITIES FOR ALL OUR STAKEHOLDERS.”

- COMMUNICATE OPENLY, ACCURATELY AND CONSTRUCTIVELY TO ALL CONCERNED
- DEMONSTRATE FAIRNESS, INTEGRITY AND RESPECT IN ALL OUR DEALINGS

# WHY USE NATURAL GAS?

“PIPED NATURAL GAS IS COST EFFECTIVE, ENVIRONMENTALLY FRIENDLY, INSTANT AND SAFE WHEN USED ACCORDING TO SPECIFICATIONS”

Natural Gas is an environmentally-friendly fossil fuel extracted from decomposed plant and animal matter found in rock, deep in the earth. Natural Gas is the earth's naturally produced combustible gas and is an effective and efficient energy source. Egoli Gas reticulates Natural Gas directly to your premises via an established, safe 1, 200 kilometer gas network in the Johannesburg area. We have been efficiently reticulating gas since 1928 to the Domestic, Central-Water, Multi-Dwelling, Hospitality, Industrial and Power Generation markets. Piped Natural Gas is cost effective, environmentally friendly, instant and safe when used according to specifications.

# SAFETY POLICY

Piped Natural Gas safety is always our highest priority. At Egoli Gas, strict Natural Gas safety standards in accordance to National and International standards are adhered to. We conduct scheduled leak detection surveys of our complete pipeline network beyond the minimum requirements and strive to implement best practice wherever possible. Regular risk assessments and audits are conducted to ensure constant compliance to standards and legislation.

## SAFETY, HEALTH & ENVIROMENTAL

Egoli Gas is committed to ensure all its operations and practices prevent harm to people, damage to property or the environment. The principles of safety, health and environment (SHE) are actively managed as an integral part of our business and all our practices.
